HEIGHT SETTABLE

We are all different heights so why are our desks the same? Whether you're taller or smaller, this height settable desk allows the user to fix their desk at a height other than 740mm.

50mm increments allow you to find the perfect height, preventing bad posture and reducing the chances of back pains and poor circulation.

notes

650-950mm fixed height adjustment - 50mm hole centres

PANEL END

The simplest ideas are often the most effective. The 25mm panel end legs provide an extremely strong desk whilst also giving a little extra privacy for those who need it.

Legs are available in every one of our 16 MFC finishes - see p218 for the full range.

BRAVA

BENCH DESKING

Bench desking has evolved over the last 10 years and people often ‘just want a desk’ without the bells and whistles that many bench systems traditionally have.

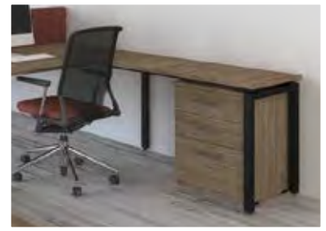
Clever engineering has allowed us to create this simple bench desk at a price point that rivals imported ranges from the Far East. But don’t think of this as poor quality - the frame is incredibly sturdy and benefits from choices you just don’t get with imported ranges; such as 16 finishes and 7 metal options, and that’s just for starters!

FIRA TESTED

Such a competitive price may lead you to think the Brava bench is inferior against other more expensive products however full FIRA certification to BS EN 527 Part 2 - Safety, Strength & Durability has been awarded.

EXTENSIONS

Free-floating extensions look great and provide an area for quick and informal meetings (perfect when paired with our seat peds).



RETURNS

All desks at 1400mm and bigger come drilled to accept returns which can give you that bit of extra space if you’re moving from an old J Shape desk.

PORTA

BENCH DESKING

Offered as a variation to the Brava bench, the Porta is a 60x40 rectangular steel leg that can be assembled by one person in just minutes thanks to its keyhole slot-together frame. Scalloped tops provide all the cable access you could ever need as well as space for mounting monitor arms. Screens simply fix on with a C clamp and will accept any cable tray thanks to the clean lines and spacious underframe.

SCALLOPED TOPS

The two stage scallop works perfectly at not just routing cables but also for mounting monitor arms whilst still allowing room for a dividing partition if needed.

FIRA TESTED

Full FIRA certification to BS EN 527 Part 2 - Safety, Strength & Durability has been awarded to the Porta bench for total peace of mind.

RETURNS

All desks sized 1400mm+ are drilled to accept a return desk which can be retro-fitted at any time. This is a great cost-effective way to add to your work area should you need the extra space.

GIANNI

BENCH DESKING

Originally introduced in 2006, the Gianni is the backbone of Britain when it comes to bench desking. Affordable pricing as well as a massive range of sizes and options, ensures this range will be one of the most popular for years to come.

Desktops range from 600mm to 800mm deep, 1000mm to 2000mm wide, available with either full width screens, or with the more fashionable inset screens (above) both available at 300mm, 380mm & 480mm high.

SLIDING TOPS

For quick and easy access to your wires. Tops are held in place with a thumb screw which can be removed and fixed with a bolt to prevent unwanted access if required.

CABLE TRAY

A large 400mm wide cable tray is included with every back-to-back bench desk which can hold multiple banks of wires - perfect for long runs of desking.

CHOICE OF LEGS

Either goalpost or A frame legs can be chosen at no extra cost.

EVOLUTION

BENCH DESKING

If your staff use multiple monitors then the Evolution is the only option worth considering. No other bench system in the UK gets anywhere close - the screen brackets provide unrivalled strength that allow as many computer monitors as you can fit, to hang off the toolbar screen which keeps your desktop free and uncluttered.

Don't just take our word for it - full FIRA accreditation assures the Evolution is more than capable of standing up to even the busiest office environments.

CABLE ACCESS

The Evolution has a flip-up cable tray to give you instant access to wires and plug sockets; great for a variety of situations including hot-desking.

TOOLBAR SCREENS

No other bench system in the UK has a toolbar screen as strong. Securely mount 2, 3 or even 4 monitors without having to counter-balance as with inferior products.

EXTENSIONS

Perfect for quick meetings or extra desk space for spreading your work over. These extensions have a rounded corner for safety and aesthetics.

Did you know?

The insides of our screens are made from off-cuts of our waste board. Not only does this help keep our costs competitive but reduces waste and lowers our carbon footprint. It's win win for everyone!

SCREENS

Trends have changed over the last 5 years as people move towards smaller screens that are a gesture of division rather than a large dividing wall, meaning you now have even more choice when specifying screens.

Whether you are looking for a small budget screen or a large premium divider, we have a full range of products suited to each and every requirement.

EDGING OPTIONS

Our budget screens are now available with 5 different edging choices - White, Silver, Maple, Anthracite/Grey & Black.

BUDGET - PREMIUM

Whether you are looking for a basic dividing screen or acrylic-filled aluminium toolbar screens, you can be certain of finding what you need.

ACCESSORIES

Pen pots, paper trays and monitor arms can hang off toolbar screens to help keep clutter off your desk.

SCREENS

Screens supplied with 30mm C Clamp as standard

All screens in this section can be supplied at 300mm, 380mm and 480mm at the same price if specified at time of order.

Available fabric finishes - any Camira fabric from the Cara or Lucia range. POA for other fabrics.

Rectangular Desktop Screen

GRID

MODULAR STORAGE

Flexible working has introduced the need for spaces that encourage collaboration. The adaptive, modular design of the Grid means that it can be configured - and then reconfigured again quickly and easily to suit the ever-changing needs of the office space.

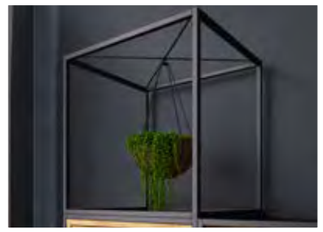
The basic building-blocks of the Grid can be connected to create a framework entirely of your design, which can then be customised with accessories to enhance its functionality.

ALCOVES

Cubby holes can be used for general office storage or for display items.

LOCKERS

With a choice of combination or pull handle locks, the lockers are a great way to secure small items in the office.



PLANT HANGERS

Hang your favourite plants from stainless steel hangers and transform your office into a more inviting, natural space.

GIANNI

A FRAME

Collaborative working involves bringing people together to work in teams and that isn't an easy task if you're stuck at a desk. These indoor picnic tables are perfect for agile companies to work on projects or even just as a modern breakout table.

Available at both desk and poseur heights from 1200mm to 2000mm wide, with matching bench seats in a choice of all our standard finishes.

COAT HOOKS

Included at both ends as standard, these coat hooks are great for hanging coats and bags neatly out the way while you have your meeting.

CABLE TRAYS

This fold-down cable tray is large enough to accommodate all your wires no matter how much power and data you need.
NB Sold separately.

FIRA-TESTED

Most meeting tables are tested to BS EN 15372 Level 2 for commercial use but the Gianni A even passed Level 3 for severe use - proof these tables will withstand even the most rigorous environments.

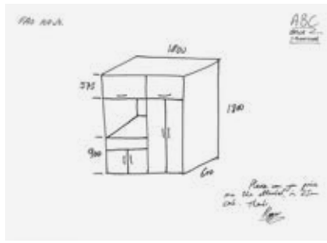
BESPOKE

One of our biggest strengths is the ability to manufacture bespoke products. We have developed a simple yet streamlined method for the consultation, design, and manufacturing of tailor-made MFC furniture.

Contact us now with sketches or photos of something you like and let us bring your ideas to life.

PROCESS



CONSULTATION

Customers will send a sketch or plans of a product they require making, or alternatively are offered guidance on what is possible to solve a problem that isn't achievable using standard products.

DESIGN

Working from the initial brief, our CAD team will work with the client and model the bespoke product in AutoCAD, showing all dimensions and a 3D image. This ensures the client receives exactly what is required, with no unexpected surprises.

FINISHED PRODUCT

When the 3D plans have been signed off by the client, production gets underway and our in-house programmers develop the product to the specified dimensions. All bespoke items are delivered assembled (within delivery size restrictions) so you don't need to worry about figuring how it goes together!

RESIDENTIAL

We like to call this heavy duty furniture. It may not be as cheap as other high street options but it certainly isn't as flimsy and with a 10 year guarantee you'll be hard pressed to find a more cost-effective long term solution.

Working primarily with architect specifiers, our robust range of residential furniture is perfect for student accommodation in colleges and universities. From consultation through to final delivery we guide and advise on the best solution for you.

BESPOKE

Larger projects are often led by architects' plans. Our in-house design team works closely with architects to create a solution that complements their design whilst advising on what is suitable for the environment the furniture is being used in.

FIT FOR PURPOSE

30 years of experience means we know what works and what doesn't. All residential furniture is protected by our 10 year guarantee and we are proud to say that not once have we had a project or piece of furniture fail due to bad design.

HEAVY DUTY

You won't find any flimsy hardboard panels here. All our carcasses are solid 18mm with 2mm edging all the way round. This makes for an extremely robust product that won't fall flat when you try to move it.

ENVIRONMENTAL STATEMENT

Many companies claim to be British manufacturers but the reality couldn't be further from the truth. Apart from a small handful of components that need to be imported (such as our accessories), absolutely everything is manufactured at our facility in the heart of East Yorkshire. Woodwork, metal fabrication and even powder-coating is carried out on site, with all raw materials sourced from as local suppliers as possible. This helps reduce our carbon footprint, reduce our dependency on third parties and provide a more reliable, ethical product, flying the flag for British manufacturing.

Responsible Manufacturing

Hawk is commited to responsible manufacturing as we believe that actions need to be taken today, rather than leaving our problems for future generations to fix. That's why all our MFC board is procured from sustainable, managed forests that are part of the Forest Stewardship Council (FSC).

Further to sourcing FSC-accredited board, we go several steps further to help minimise our carbon footprint. Waste board is used to heat the factory in a state-of-the-art biomass burner and larger off-cuts are used for the core of our budget screens. Not only does this allow for pleasant working conditions all year round but makes for extremely competitively-priced desk screens.
