About Sven Christiansen

Established in 1974, Sven Christiansen plc is a privately owned British furniture manufacturing company.

Service | To ensure first-class service comes as standard, we work in close partnership with reputable local distributors. We allow them access to all our resources, while they add their own individual expertise and convenience of a local presence.

Our products can be viewed and experienced at our main showroom at our factory near Dudley, West Midlands, where we also offer factory tours. We have smaller displays at our London Design Studio, our head office in Guildford and our showroom in Cumbernauld (between Glasgow and Edinburgh). Many Sven distributors also have showrooms.

Choose Sven...

...because you want high-quality and long-term durability, at a very competitive price.

...because you want exceptional service, not simply at purchase but throughout the life of the furniture you install.

We build to last | All Sven furniture is guaranteed for five years (three years for moving parts), although we have many sites installed more than 15 years ago still going strong.

Our large installed base and ongoing business from existing clients is of utmost importance to us. That's why we see the development of our ranges as a process of evolution: adding new components and features, and designing new ranges to cater for the latest technology, changes in work practices and individual working styles – but always seeking to maximise backwards compatibility.

Quality | With a background as cabinetmakers, Sven began by manufacturing furniture in veneer. We retain craftsmen with cabinetmaking skills that even the best machines cannot replicate.

Choice | A wide range of high-quality office furniture and workspace solutions, designed and manufactured with care: office and reception desking, conference and meeting tables, and wall storage systems. Our seating ranges include working and executive chairs, meeting and conference chairs, reception and breakout seating.

Promise | We strive to provide the very best products, service and value. Proud of our long, well-established reputation as a supplier of great integrity: we do what we say, and should there, unusually, be a problem we do whatever is necessary to resolve the issue to the customer's satisfaction.

Flexibility | True manufacturers, not sub-assemblers, we operate our own metalwork fabrication and upholstery sections. Combined with instantly programmable machinery and our in-house design capability, we are extremely flexible and responsive to changing customer needs.

Smart working | Investment in sophisticated computerised machinery means we manufacture very efficiently and keep our prices low. Our systems are designed specifically for furniture production. With over three million different standard product combinations, coding for accurate manufacture is crucial to ensure customer satisfaction.

Accreditation | Our quality management systems are independently audited to ISO 9001 and our Environmental Management to ISO 14001 (both by BSI) and we hold FSC® (Forest Stewardship Council®) Chain of Custody certification.

We support better management of the world's forests by using FSC® certified wood.

Note: veneers and hardwood timbers

The varying grain and figure of our solid hardwoods and veneers emphasise the beauty and individuality of natural timber.

No two pieces are identical: there will be knots, variations in hue, grain and figure, and markings arising from minerals in the sap. These are features not faults, and simply prove the product's natural origin.

Most timbers and veneers either lighten or darken on exposure to light. Should you subsequently add additional items there may be an initial colour mismatch that should even out over time.

Colour accuracy

Due to variations in lighting and the limitations of print, variations in colour may occur between brochure illustrations and manufactured items. Samples of all our finishes are available on request from Customer Services.

Specifications and Terms

We reserve the right to amend or update specifications, or delete items, without prior notice. All supplies are subject to our Terms and Conditions of Sale unless otherwise agreed in writing beforehand.

QUALITY, STYLE: THE FURNITURE OF CHOICE

Ambus is one of the most comprehensive desk systems available, with matching storage and tables and complementary screens. Desks are offered on both metal frames and panel ends, in an extensive choice of shapes, sizes and finishes, in both MFC and veneer.

- Wide variety of top shapes cater for new and traditional ways of working
- Create optimal layouts to make best use of costly office space
- Comprehensive cable management options, all easily accessible
- Choice of MFC and natural veneer finishes
- Extensive range of matching storage
- Two complementary screen systems.

Meeting desks in Concrete MFC on Zinc legs

Single pedestal desk in Natural Walnut/White, Faux Chrome frame

Tables

CRISP CLEAN DESIGN CHARACTERISTICS

Ambus features an extensive choice of meeting and conference tables in a wide range of sizes and top shapes. Bases are offered in a variety of styles, in steel, aluminium and timber. Comprehensive cable management options give convenient and discreet access to sockets, and cables can be routed to floor level via concealed conduits.

- Choice of MFC or natural veneer finishes
- Rectangular, circular, oval, D-end and barrel-shape tops
- Standard sizes from 800 x 800mm to 5000 x 1200mm
- Twelve different base styles
- Comprehensive cable management options, including lift-out tiles and hinged flaps.

Macassar Tan barrel table, arrowhead bases, glass cable tiles. F3 chairs

Reception Desks

IMPRESSIVE RECEPTIONS, APPEALING PRICES
Create attractive reception counters of any length, using high or low modules or combinations of the two. Counter height sections provide privacy and conceal clutter: desk height units offer enhanced visitor contact and are convenient for parcel deliveries.

- Choice of MFC or veneer finishes, or combine veneer tops with MFC vertical panels.

Smoked Oak veneer and gloss White MFC reception, with Oyster low seating

Gloss White MFC with Macassar Gold tops, Clarity low seating

Concrete and Slate MFC reception, with Skoop low seating

Pythonwood and White MFC, Iris low seating

HiRise®

Electric Height-adjustable Desks

ADJUSTABLE, ATTRACTIVE, AFFORDABLE
Stand up for a healthier lifestyle and a workplace as individual as you are with HiRise, the next generation of electric sit-stand desks. Move effortlessly between sitting and standing at the touch of a button, with the extra convenience of four memory presets and the safety of an integral anti-collision mechanism. Individual and double-sided bench desks with tops in MFC or veneer, complemented by matching storage.

- Single or double bench desks
- Choice of MFC or natural veneer finishes
- Robust steel frame for supreme stability
- Soft start/stop for smooth movement
- Optional screens, modesty panels, pen drawers and wide tray drawers
- HiRise corner desks and conference tables also available.

X-Range

Bench System

STRENGTH, STYLE AND STABILITY

X-Range bench combines elegance with exceptional strength and rigidity. Tops may be fixed or sliding, with highly practical integral cable management as standard. Adapt as your needs change: lengthen or shorten bench runs by adding or removing modules as required. Optional slim profile screens help separate work areas and provide privacy.

- Vertical Power Towers and horizontal cable trays for unrivalled cable handling
- Optional height adjustment of individual tops.

X-Range

Desks

THE PERFECT MATCH

X-Range desks are available in three styles: with GP legs to match the standard legs on X-Range bench, on panel ends and on metal C-frames. Desks on GP legs are offered with or without modesty panels and create a contemporary light and airy feel. Desks on panel ends and with C-frames include modesty panels as standard, and create a more traditional environment.

- Choice of two metal frame styles or panel ends (with or without cable management)
- Complementary storage, tables and screens.

Tables

MODERN MEETING TABLES GET YOU TALKING

X-Range offers contemporary, cost-effective tables in a choice of MFC finishes. Distinctive X and Y column bases and GP leg frames in White, Slate or Silva pair perfectly with circular, rectangular, bow-end or barrel-shape tops. Optional concealed floor to tabletop cable routing inside the column bases.

- Choice of four top shapes
- Sizes from 800 x 800mm to 5000 x 1200mm
- Optional cable ports and cable trays.

Reception Desks

THE MODERN WAY TO MEET AND GREET

Our comprehensive choice of X-Range reception modules combine to suit foyers of all shapes and sizes. Simply build your perfect counter by linking straight and curved base units in any sequence, with deskovers, glass shelves and pedestals as desired. Available in a wide choice of MFC finishes.

- Create receptions of any size
- Combine counter-height deskovers, glass shelves and desk height segments to form your ideal layout
- Optional internal recessed panels maximise leg room
- Integral kickplates protect against accidental damage
- Matching square, rectangular and circular coffee tables.

Semi-circular reception counter in Zebrano and White MFC, with deskovers and glass shelves, Faux Chrome columns and kickplates

High/low counter in Macassar MFC combining openness and privacy

Internal view showing recessed panels that maximise legroom

Reception in Natural Oak and White MFC – with enhanced wheelchair access

Office Screens

Office Screens feature in our Ambus and X-Range brochures

DEFINING SPACES

Our three screen ranges help define and divide working areas and provide privacy: ALU and SPA feature variations of our unique multi-way linking system and come in sizes to match all furniture components. ALU and SPA may be upholstered, part-glazed or glazed, and incorporate pinnable capability or dry wipe whiteboards, while desk-mounted screen options include integral aluminium channels (slatwalls and accessory bars) for mounting letter trays and other items.

ALU | Substantial aluminium frame, with the option of floor or desk level high-capacity cable trunking, accessed via hinged flaps on both sides.

SPA | Slim-line aluminium frame combines strength, versatility and elegance.

QPAD | New fully upholstered screens for bench and freestanding desks

Screen accessory bar

DESIGN FOR THE CONTEMPORARY EXECUTIVE

Distinctive modern styling is the hallmark of our Fulcrum Contemporary Executive furniture collection. Beautifully crafted desks, chic workstation combinations and perfectly matched storage. Pick finishes from a palette of natural timber veneers, glass, high gloss lacquers and metals to create office suites that exude individuality in appearance and character.

- Freestanding desks and workstations
- Complementary meeting tables and freestanding storage
- Tops in veneer or glass
- Choice of handles, or flush 'press to open' drawers and doors.

EXQUISITE CRAFTSMANSHIP IS TIMELESS

Few tables can effectively complement an original Adam interior: Fulcrum can.

Decisions that affect all our lives are taken at Fulcrum tables. We don't claim they ensure better decisions, but they provide a setting that encourages careful thought.

- Traditional craftsmanship of the highest standard
- Edges in solid timber or MDF
- Reconfigurable tables for ultimate flexibility
- Match to HiStore wall storage system with integral presentation and display facilities
- Optional veneer inlays and detail lines
- Bespoke service for custom requirements.

BUILT-IN FLOOR-TO-CEILING STORAGE

Maximise your storage capacity with HiStore built-in storage. Fit against an existing wall, or use single or double-sided to create partitions. HiStore is available in a wide range of MFC, high gloss and veneer finishes. Elements include doors, drawers, open shelves and presentation units in any combination, and there is a comprehensive range of internal fittings: customised to fit exactly into whatever space you have available.

- Install on an existing wall, specify a finished back to create a wall or back-to-back for storage on two sides
- Incorporate display or projection screens
- Range of interiors, including shelving, lateral and roll-out filing, pigeonhole units and wardrobe fittings
- Timber, glass or side opening tambour doors
- Choice of finishes matching all furniture ranges
- Optional ebony detail lines and veneer inlays.

Modular Tables

FlipTop, Sectional & Folding

MOBILE AND RECONFIGURABLE

FlipTop | Tops pivot 90° from horizontal to vertical, nesting together for compact storage and making moving from room to room simple and convenient.

Sectional | Tables on removable Quick-fit legs, for individual use or linked together on demand to form larger configurations. Stack and store tables on trolleys and wheel wherever required.

Folding | Effectively mini desks – with integral modesty panels and cable management within the frames – that fold completely flat for minimal storage when not in use.

- Legs and frames in Zinc, Slate or Chrome
- Rectangular, trapezoidal and D-shape tops, in a choice of widths and depths.

G-Series™ & J-Series™

Seating

ENGINEERED WITH ELEGANCE

G-Series | Comprises five working chairs and five accompanying visitor/meeting chairs. Available in a variety of configurations, each carefully developed to combine comfort and style with exceptional durability.

Tailor each chair to your specific needs from our wide choice of mechanisms, arm and base options.

Visitor/meeting chairs come with and without arms, straight or waisted shell, on four legs and on gently sprung stacking or non-stacking cantilever frames.

J-Series | Working and visitor chairs feature a striking and contemporary mesh back, available in Black or White, and a comfortably contoured seat.

Conference Chairs

FOR EVEN THE LONGEST MEETINGS

Elegant meeting and conference chairs of exceptional quality and comfort.

F1 and F2 models have solid hardwood frames in a wide range of timbers and finishes. F3 and F4 models have steel tube frames. All models are available with or without arms, and steel parts are available painted Zinc or Black, or in polished Chrome.

Four-legged models may be specified with our unique Freefloat™ mechanism. Freefloat™ provides a smooth range of movement from a forwards tilt of -3° to a rear tilt of +10°. The automatically progressive resistance requires no user adjustment, and because no controls are required the Freefloat™ mechanism does not alter the visual appearance of the chair. Freefloat™ is optional on Fulcrum F1, F2 and F4 chairs (and on G-Series G5 and G7).

Fulcrum seating designed by Hilary Birkbeck.

FURNISH WITH FLAMBOYANT FLAIR

Skoop | Cute, curvy, comfortable and available on a polished Chrome skid base or four-star polished aluminium base.

HB1 | Versatile series comprising individual chairs on polished Chrome tubular legs or disc bases, and a matching two-seat sofa.

Oyster | Supremely comfortable medium and high-back chairs featuring an external timber shell finished in Natural Walnut or Light Oak veneer, White or Black high gloss lacquer, fabric or leather. Offered on a four-star swivel base or polished Chrome skid.

Lily | Funky yet practical, the Lily sofa looks compact but, at a pinch, seats four. Scatter a couple of Lilypad stools nearby for uber-flexible, relaxed seating.

Monday | With clean modern lines these visually light chairs, sofas and matching coffee tables are ideal for breakout areas or 'smart-casual' receptions.

Skoop, HB1 and Monday designs by Hilary Birkbeck.

Finishes

Our MFC and hand-selected, crown cut veneers are both extremely durable finishes. Veneers are a more costly raw material than MFC and require a series of lengthy and skilled preparation and finishing processes – and therefore carry a price premium.

MFC Finishes

- Wood grain MFC offers a realistic likeness of natural timber at an attractive price. Concrete offers a remarkably convincing illusion, and plain colours can be used alone or in combination with other finishes. MFC provides consistency of colour and structure, plus a perfect colour match between panels. Designer MFCs and laminates provide examples of the wider choices available on request.

Veneer Finishes

- Bring greater individuality and warmth to each item of furniture
- The beauty of the natural variations in hue, grain and figure make each piece unique.

High Gloss Lacquer Finishes

- Combine with veneer to create a contemporary look.
